I also need your help! I have a licence key and I need to install it on a friend's PC so he can use the software. I used the licence recovery, but when I'm trying to install, it just keeps showing me the licence recovery screen over and over again. I have no idea how to do it, so I was hoping you could help me! Thanks and have a good day! sarah Why is it that whenever I'm watching movies or listening to music, the volume gets super low after a while and nothing will raise it except restarting the computer? I'm using a good headset with the microphone so I don't think that's the issue. Any thoughts? dutch Cannot detect devices and recognize the headphone or external speakers. You may need to update device drivers. Contact Microsoft Support for further information. Yes, the microphone works! I am using Vista and this is the first time that I used the MS Audio Device Manager. It detected all devices in the computer. You need to update the drivers for your sound card and the software itself. hello DID YOU ALREADY INSTALL THE DRIVERS OF THE HARDWARE, E.G. MICROPHONE, THE HEADPHONE, THE EXTENDED DRIVERS AND DID YOU TEST YOUR MOUSE OR OTHER SENSOR BEFORE THE EXECUTION OF THE SOFTWARE. Hello I need to recover my pc I have accidentally overwrote the Registry so I do not have the Windows Password but I do have the Software Key and License but I am unable to find any software that can get it to work. Please help. I just downloaded a template for Expression Web 3 but it won't start after I click on it. It opens and then just closes after that. Any ideas? I'm having a similar problem. Downloaded the template, clicked on it, loaded the page with the correct database and it started working. After about 5 minutes or so, it stopped working. I 82157476af
